MOTTO

I am an enthusiastic and detail-oriented FullStack developer with expertise in ReactJS, HTML, CSS, JavaScript, NodeJS, and NestJS. I love learning about new technologies and coding complex functions. I know software programming, REST APIs, and online application design. I have excellent teamwork skills and love to lend a hand.

SKILLS

Programming Languages:

HTML, CSS, JavaScript, TypeScript, NodeJS.

Frameworks / Platforms/RDBMS:

ReactJS, Redux, Redux-toolkit, Bootstrap, styled-component, Ant-design, NextJS. NestJS, Prisma, MySQL, PostgreSQL.

Foreign Languages:

English (reading).

Version Control:

Git , Sourcetree.

Soft Skills:

Teamwork, Technical communication, Highly adaptable.

Others:

Organization and time management, Self-discipline and responsibility, willing to learn a new language or technology.

EDUCATION

August 2022 - February 2023

FRONT-END DEVELOPER

CyberSoft Academy

Learning experiences such as a 6-month internship, continual coding projects, grouping, debate, thinking analysis, and problem solution

2021 - 2024

SOFTWARE TECHNOLOGY

Gia Dinh University

INTERESTS

I enjoy taking part in team-building activities and reading books about technology.

CERTIFICATIONS

2023

CYBERSOFT PROFESSIONAL FRONT-END DEVELOPER CERTIFICATE

PROJECTS

Project 1: Movie

June 2, 2023 - June 5, 2023

Team size: 1

Web
movie-tmdb-ochre.vercel.app

Project 2 : Portfolio

May 3, 2023 - May 6, 2023

Team size: 1

Web:
portfolio-mocha-seven-50.vercel.app

Project 3: API Service Book movie tickets

March 31, 2023 - April 12, 2023

Team size 1

Git:
https://github.com/PhanHunggg/NestJs_Movie.git

Project 4 : e-learning

March 6, 2023 - March 26, 2023

Team size: 3

Web:
e-learning-app-three.vercel.app

Project 5: Book movie tickets

February 10, 2023 - March 5, 2023

Team size: 2

Web:
movie-app-amber-eight.vercel.app

YOUR POSITION IN PROJECT

- Build a movie-watching website using the TMDB API.
- When you select a movie, it will display movie information such as the title, rating, summary, actors, Official Videos, Similar Movies, and Recommendations.
- Users can look for movies, television shows, and movie genres that they enjoy.

TECHNOLOGY DESCRIPTION

ReactJS, Redux-toolkit, SASS, JavaScript, REST APIs

YOUR POSITION IN PROJECT

- Build an online portfolio.
- The website displays abilities, projects, and contacts.

TECHNOLOGY DESCRIPTION

ReactJS, SASS, JavaScript

YOUR POSITION IN PROJECT

- Create an API Service.
- APIs can add, delete, edit, and update movies, users, seats, showtimes, and ticketing.

TECHNOLOGY DESCRIPTION

JavaScript/TypeScript , Prisma, MySQL, NestJS

YOUR POSITION IN PROJECT

- Leader. Build an educational site similar to Udemy.
- Build a homepage, and profile page with functions to view courses, personal information, update personal information, view registered courses

TECHNOLOGY DESCRIPTION

ReactJS, Redux-toolkit, SASS, JavaScript/TypeScript, REST APIs, Ant Design

YOUR POSITION IN PROJECT

- Leader. Create a website to buy movie tickets similar to Galaxy-Cinema.
- Create an admin page to manage users and govern new and forthcoming movies. Contains capabilities for configuring movie showtimes, users
- Create a login page and user registration. Create a homepage and a movie detail page.

TECHNOLOGY DESCRIPTION

ReactJS, Redux, SASS, JavaScript/TypeScript, REST APIs, Bootstrap
